Applicant's election without traverse of the invention of species I in Paper No. 9 is acknowledged.

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 1-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over the combination of Chen, Bracchitta et al and Wolf, Vol.2.

The rejection is maintained as stated in the paper mailed 9/6/02 and as follows.

The claims now require the first and second concave portions to have substantially the same depth. In the process of the combination the depths of the concave portions would be substantially the same according to the teachings of Chen. Bracchitta et al is relied on to suggest patterning the conductive layer 29 on the surface of the substrate to enable transistor (gate) formation. The additional teachings of Bracchitta et al related to STI formation do not negate those relied on.

It is noted that the concave portion 10 of Chen in which the antifuse is fabricated has more than one portion, one of which is the same depth as the other concave portion 12, as recited, and a deeper portion. Either of the portions is seen to meet the recitation of claim 1 at least in view of the subjectivity associated with use of "substantially". Applicant has not provided guidance in the specification as originally filed to determine the intended scope of the term. MPEP 2173.05(b)(D).

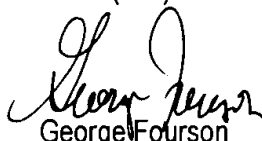

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

Any inquiry of a general nature or relating to the status of this application should be directed to the Group Receptionist whose telephone number is (703) 308-0956. See MPEP 203.08.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to examiner George Fourson whose telephone number is (703) 308-2544. The examiner can normally be reached on Monday through Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Olik Chaudhuri, can be reached on (703) 306-2794. The fax number for this group is (703)308-7722 (or extensions 7724, 3431 or 3432) for regular communications and (703)308-7382 for after final communications.
